SAVE SEASON/TOURNAMENT

- To save your Season/Tournament, at the end of a Season or Tournament game press **START** at the Options menu

NOTE: *You can only save one season or tournament at a time.*

NEW TOURNAMENT

Go head-to-head in a round robin or single elimination tournament.

NOTE: *If you start a new tournament, any existing season or tournament is erased.*

SETUP SCREEN

To play a Tournament:

1. Select NEW TOURNAMENT from the Game Setup screen.
2. Select GAME LENGTH, TYPE, and the number of PLAYERS, and press **START**.

SINGLE ELIMINATION

4, 8, or 16 players compete in a single-elimination Tournament. When you select SINGLE ELIMINATION, the Team Setup screen appears with an empty playoff tree displayed. Select your team and enter a name for identification purposes. Duplicate team selections are allowed.

- Control Pad \uparrow to highlight a team entry slot.
- Control Pad \leftrightarrow to cycle through the teams.
- Press **X** to enter a name.

NOTE: *Entering a name here does not mean you are tracking your performance statistics. (See User Records Screen on p. 7.) Instead, you are entering a name to identify yourself.*

- Press **START** when you've finished making selections. The Tournament screen appears.

The Tournament screen shows the matchups for the tournament.

- To select the matchup you want to play first, highlight the game with the Control Pad and press **START** or **X**. The Team Select screen appears. See The Team Select Screen on p. 6.

ROUND ROBIN

When you select **ROUND ROBIN** as your game play type, the number of players varies from 4–16. You can enter names, and duplicate team selections are allowed.

If 4–8 players are entered in the tournament, there is a single division. Selecting 9–16 players creates two divisions. The placement of teams into divisions is random, and each team plays its division rivals twice (once home, once away). Once you've decided upon the number of players, press **START**. The Team Setup screen appears.

After you choose teams and enter names, the Tournament screen appears, listing the matchups for the Tournament. Every game must be played—no simulations allowed, but games can be played out of sequence. For example, you can play the third game in the tournament before the first game.

- To cycle through tournament matchups, Control Pad \leftrightarrow .
- To select a game, Control Pad \uparrow to highlight the game and press **X** or **START**. The Team Select Screen appears. See Team Select Screen on p. 6.

At the end of the round robin portion of the Tournament, the teams with the best record in each division go on to a single-elimination playoff. The number of teams in each division determines the number of teams included in the playoffs. If there are less than 6 teams in at least one of the divisions, the top 2 teams in each division go on. If there are more than 5 teams in all the divisions, the top 4 teams continue to the playoffs. Thus, from 2–16 teams can participate in the final playoffs.

CONTINUE SEASON/TOURNAMENT

Select these game modes to continue a season or tournament in progress at the next scheduled game. To continue, you must first complete a season game or win a tournament game. If you quit in the middle of a game, that game is not saved and must be played again from the beginning.

PLAY CALL: College Football USA 97 features two modes for calling plays 1 BOX or 3 BOX. 1 BOX allows you to bluff when calling your plays. 3 BOX is a simpler play selection method. To learn more about these two modes, see *Calling A Play* on p. 18.

PASS CATCH: Two pass catch modes are available: AUTO and MANUAL. In both modes, the spot where the pass is aimed is highlighted with a target.

In AUTO Passing, the computer controls your pass receivers. This mode is easier than Manual.

In MANUAL Passing, you take control of the intended receiver after the quarterback has thrown the ball.

ABX PASSING: Toggle ON/OFF. Choose between three or five potential receivers. With ABX Passing ON, three receivers are available, and you see the appropriate button letters next to the receivers as they run up the field. Turn ABX Passing OFF and you can select from five receivers. See *Passing and Receiving* on p. 20.

INJURIES: Toggle ON/OFF. See *Injuries* on p. 11.

ABORT GAME: Select this option to quit your game and return to the Game Setup screen.

THE COIN TOSS

The visiting team chooses heads or tails. If you are the visitor, you make the call

- To select heads or tails, Control Pad \updownarrow . You must make the call while the coin is in the air.

If you win the toss, you can receive, kick, or choose which end of the field to defend.

- To make your choice, Control Pad \updownarrow to highlight the option you want, then press **X**.

If you lose the toss, depending upon your opponent's choice, you choose either the goal you defend, or whether to kick or receive.

- To choose a goal to defend, Control Pad \updownarrow , then press **X**.
- Press **START** to start the game.

PLAYING THE GAME

KICKING

The Kick meter allows you to place your kick just about anywhere on the field. Kicks are affected by wind, so keep an eye on the wind direction when gauging your kick. The following instructions apply to kickoffs, punts, and field goals:

To set the kicking team in onside kick formation during a kickoff:

1. Press **A** to call an audible.
2. Press **A/X** for an onside left/right formation.
3. If you change your mind, press **A** to call an audible, and then press **B** to return to standard formation.

NOTE: An onside kick must travel at least ten yards before the kicking team can recover the ball.

RETURNING THE KICK

When receiving, both kickoffs and punts are automatically fielded by your deep men, provided your team is in proper formation.

TIP: On kickoffs, your team is automatically set in the kick receiving formation. For punts, you must choose **PUNT RETURN** or **PUNT BLOCK** to field a deep man.

To set the receiving team in onside kick formation:

1. Press **A** to call an audible.
2. Press **A/X** to defend an onside left/right kick.
3. Press **B** to return to standard formation.

Kick returners automatically field the ball and run.

- To take control of the kick returner, Control Pad in any direction.

CALLING A PLAY

There are two ways to call a play from the Play Call screen: 1 or 3 Box modes. In both modes, you select a Formation first, then a play. 1 Box mode lets you bluff when calling a play. To learn more about how to select the mode you want, see Play Call Mode on p. 16.

To call a play in 3 Box mode:

1. From the Formation screen, select the formation you want, then press the corresponding button. The Play Call screen appears
2. Select the play you want, then press the corresponding button. You return to the field at the line of scrimmage.
 - If you choose a formation or play and then change your mind, select **SET FORM** to back up and select a different formation.
 - To call a timeout from the Play Calling screen, select **TIMEOUT**.

For more information see Timeout on p. 23.

- To go to the Instant Replay screen, select **INSTANT REPLAY**. For more information see Instant Replay on p. 23.
- To quickly check your team's energy levels, select Team Roster

For more information, see Team Rosters on p. 10.

To call a play in 1 Box mode:

1. From the Formation screen, select the formation you want, then press **X**. The Play Call screen appears.
2. To bluff, move the box over the play you want to pretend to call and press **B**.
3. To call the play you actually want, move the box over the play and press **X**.
4. Press **A** to exit the Play Call screen.

When you press **B**, you hear the same "select" sound you hear when you press **X** but no play is called. Also, you can choose more than one play with the **X** button; the last play chosen is run.

Use the same procedure as when using 1 Box mode to set audibles.

- When you reach the line of scrimmage, press **X** to snap the ball, and press **B** to fake the snap.

TIP: If you try a fake, you may draw the defense offsides.

CALLING AN AUDIBLE

1. From the line of scrimmage, press **A**. The audible indicator appears.
2. Press the button corresponding to the play you want to run.
3. Press **X** to snap the ball. See Set Audibles on p. 15.

THE PLAY CLOCK

The offense has 25 seconds after the whistle to call the next play and snap the ball. If the 25 seconds expire before the ball is snapped, the offensive team receives a five-yard Delay of Game penalty. When a Timeout is called, the Play Clock is reset at 25 seconds.

OFFENSE

RUNNING

There are a number of slick moves you can execute while running the ball.

- On option plays: To hand the ball off or lateral to a runner, press **X**. The quarterback hands the ball to the closest back.
- To change directions, press the Control Pad in the direction you want to move.

- To make the ball carrier dive, press **A**.
- To explode forward, tap **B**.
- To spin, hold **B**.
- To hurdle, press **Y**.

PASSING AND RECEIVING

There are two passing modes: ABX Passing ON or OFF. With both modes, you can let the computer execute the play, or you can take control of the quarterback by pressing the Control Pad in any direction. If you do, it's up to you to call up receiver letters, choose a receiver, and pass the ball.

ABX Passing On

ABX Passing ON gives you three receivers to choose from (it's also easier than ABX Passing OFF). A controller button letter appears next to each possible receiver and you push the corresponding button to pass to that receiver.

- To display the button letters, press **X** after the snap.
- To throw to a receiver, press the corresponding button.
- Hold the button down for a bullet pass; tap it for a lob.

ABX Passing Off

With ABX Passing OFF, you can choose from five available receivers. The technique is a little trickier, but once mastered, gives you more options on the field.

To execute a passing play with ABX off:

1. Press **X** to snap the ball. The letter "X" appears next to a receiver.
2. To cycle through receivers, press **A/B**. The "X" jumps to the next receiver. Keep pressing **A** or **B** to cycle through receivers until you get the one you want.

TIP: Just like a real quarterback, you've got to read the field and choose the right receiver quickly or you're sure to get sacked.

3. Press **X** again to throw to that receiver. As with ABX ON, hold the button for a bullet, tap it for a lob.

While the ball is in the air:

- To switch control to the intended receiver in manual mode, press **B**, then use the Control Pad to guide the receiver. In automatic mode the switch is made automatically.
- To raise the receiver's hands or make him jump, press **Y**.
- To make the receiver dive for the ball, press **A**.

FIELD GOALS, PUNTS, AND P.A.T.S

Select the formation SPECIAL TEAMS from the Play Call screen (Control Pad , if you don't see the formation). Select the play you want (e.g., Field Goal), and operate the kicking meter just as you would for a kickoff. See Kicking on p. 17.

NO-HUDDLE OFFENSE

For those desperate drives late in the game, try the hurry-up offense.

- To go straight to the line of scrimmage and repeat the previous play, hold **X** right after the whistle blows.
- To run a "Stop Clock" play (the quarterback throws the ball into the ground), hold **A** right after the whistle blows. When your team lines up, press **X** to snap the ball. The quarterback grounds the ball.

TIP: Don't touch the Control Pad when executing a "Stop Clock" play. Once you assume control of the quarterback, you cancel the grounding command.

DEFENSE

DEFENDING A RUN

The defense reacts automatically to the action on the field, but you can take control at any time.

- To fire off the line of scrimmage and get a slight jump on the offensive linemen, press **X**. Watch out for offside violations.
- To dive at the ball carrier for a crushing hit, press **A**.
- To take control of the defensive player closest to the ball, press **B**.

- To make a power tackle when you are close to the ball carrier, press **X**.
- OR

- To make the defensive player jump and raise his hands to block a kick, or intercept a pass, press **X**.

DEFENDING A PASS

If the receivers run passing patterns, the defensive backs automatically cover them. However, if you want to take control of the defensive player closest to the ball, press **B**. The circle target moves under that player.

As with all defensive situations, the player over the circle target can dive (press **A**), or jump or raise his hands to intercept the pass (press **X**).

SPECIAL TEAMS

- With both punts and field goals, you have two options: to defend or to block. Choose SPECIAL TEAMS as your formation, then make your selection from the Play Call screen.

When you receive a punt, choose PUNT RETURN if you want your men to drop back and block.

TIP: Choose **PUNT BLOCK** if you want to rush the punter and let the kicking team pursue your kick returner. Use the Control Pad to take control of your deep man.

You have the same options when you defend a field goal or P.A.T.

THE PAUSE MENU

You can pause the game at any time. The game clock stops running, and the Pause menu appears.

- To pause the game, press **START**. The Pause menu appears.

NOTE: Most of the Pause menu options are available from the Pregame menu. Only the unique Pause menu options are listed below.

To make selections from the Pause menu:

1. Control Pad \updownarrow to highlight an option.
2. Press **X** to select the highlighted option, or to toggle between available options
3. Press **START** to return to the Pause menu.

RESUME GAME Return to the current game. You can also press **START** from the Pause menu to return to the game.

 - Use the Control Pad to position the cross-hairs over a player or portion of the field you want to isolate during the replay.
2. Press **START** to exit the Replay screen and return to the Pause screen.

Timeouts can also be used to rest your players; energy levels are refreshed after a time-out is called. You can call a Timeout after the whistle blows, signifying the end of a play. Notice that when you return to the Play Call screen, your Timeout indicator reflects the call.

PLAYOFFS AND BOWL GAMES

When you select NEW SEASON as a play mode, you can choose the style of tournament play you want. From the Game Setup screen, select either **PLAYOFFS** or **BOWL GAMES**. When the regular season ends, you begin Tournament play.

PLAYOFFS

Welcome to the playoffs, a 16-team, single-elimination tournament. Your team enters the tournament paired against its opponent according to rank. If your team wins, you advance to the next round. If your team loses, you can either select another team and continue the tournament, or return to the Game Setup screen and make a new play mode selection.

BOWL GAMES

Four Bowl games are scheduled: the Nokia Sugar Bowl®, the Tostitos Fiesta Bowl®, the FedEx Orange Bowl™, and the Rose Bowl®. The rankings determine the eight teams that participate in the Bowl games. Four spots are automatically given to the first ranked team in each conference; the second four spots are given to the remaining highest-ranked All Conference teams. The first and second ranked teams in the country must play each other, and the Rose Bowl always hosts the Pac 10 and the Big 10 champs. After you play your Bowl game, check the rankings again to determine your final status.

TIES

If there is a tie after regulation time runs out, the game moves into overtime. In overtime the play clock runs as usual, but there's no game clock.

LIMITED WARRANTY

BLACK PEARL SOFTWARE warrants to the original consumer purchaser that this Game Pak (PAK) shall be free from defects in material and workmanship for a period of 90 days from the date of purchase. If a defect covered by this warranty occurs during this 90-day warranty period, BLACK PEARL SOFTWARE will repair or replace the PAK, at its option, free of charge.

To receive this warranty service:

1. DO NOT return your defective Game Pak to the retailer.
2. Notify the BLACK PEARL SOFTWARE Consumer Service Department of the problem requiring warranty service by calling: (818) 591-1310. Our Consumer Service Department is in operation from 9:00 a.m. to 5:00 p.m. Pacific Standard Time, Monday through Friday.
3. If the BLACK PEARL SOFTWARE service technician is unable to solve the problem by phone, he/she will provide you with a Return Authorization number. Simply record this number on the outside packaging of your defective PAK, and return your PAK freight prepaid, at your risk of damage, together with your sales slip or similar proof-of-purchase within the 90-day warranty period to:

BLACK PEARL SOFTWARE Consumer Service Department,
5016 N. Parkway Calabasas, Suite 100, Calabasas, CA 91302

This warranty shall not apply if the PAK has been damaged by negligence, accident, unreasonable use, modification, tampering, or by other causes unrelated to the defective materials or workmanship.

REPAIRS AFTER EXPIRATION OF WARRANTY: If the PAK develops a problem after the 90 day warranty period, you may contact the BLACK PEARL SOFTWARE Consumer Service Department at the phone number noted. If the BLACK PEARL SOFTWARE service technician is unable to solve the problem by phone, he/she may provide you with a Return Authorization number. You may then record this number on the outside packaging of the defective PAK. Send the defective PAK, along with \$10.00 freight prepaid to BLACK PEARL SOFTWARE. BLACK PEARL SOFTWARE will, at its option subject to the conditions above, repair the PAK or replace it with a new or repaired PAK. If replacement PAKS are not available, the defective PAK will be returned and the \$10.00 payment refundable.

WARRANTY LIMITATIONS: ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY LIMITED TO NINETY DAYS FROM THE DATE OF PURCHASE AND ARE SUBJECT TO THE CONDITIONS SET FORTH HEREIN. IN NO EVENT SHALL BLACK PEARL SOFTWARE BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES.

The provisions of this warranty are valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts or exclusion of consequential or incidental damages, so the above limitations and exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
